

MEASUREMENT RESULTS: SLURRY COVERED WITH JT COVER

Contractee:

JT Cover
Vilhelmsborgvej 8C
7700 Thisted
Denmark

Testing Institute:

Institut für Boden und Umwelt
LUFA Nord-West
Jägerstr. 23-27
26121 Oldenburg
Germany

Testing Site:

Versuchshof Wehner
der Landwirtschaftskammer Niedersachsen
26160 Bad Zwischenahn
Germany

Measurement period: 19.2.2019 – 14.8.2019

Project number: 20180403-1565

The tests were carried out to measure the reduction rate of odour and ammonia emission on slurry covered with JT Cover.

Measurement result reduction of odour emission:

JT Cover reduces odour emission up to **90 %**.

Measurement result reduction of ammonia emission:

JT Cover reduces ammonia emission up to **84 %**.
